

Early Childhood

Sheridan Community Schools

The Sheridan Community Schools' Early Childhood Program provides learning experiences to children ages three (3) to five (5) years old. The Early Childhood Program aligns with the district's mission and vision to provide every student the opportunity to develop skills, habits and attitudes necessary for success in career and life. Students that have learning challenges are provided a nurturing learner-centered environment where they are actively engaged in developing age-appropriate skills, while fostering communication, critical thinking, problem solving, and social skills. The Early Childhood program is the first step in preparing our students for success.

A service that is provided in collaboration with Hamilton-Boone-Madison Special Services is the Early Childhood Assessment Team (ECAT). The team provides educational evaluations that are administered to measure students age appropriateness in the areas of academics, behavior, social skills and physical skills. If you have a student with a suspected learning difficulty, please contact the Early Childhood Assessment Team at (317) 984-1653. If your child is under the age of three (3), or will not be turning three in the coming six (6) months, please contact First Steps at (317)257-2229. For more information [ECAT](#) or [First Steps](#).
